Dear Partners,

Technology urges to make new arrangements and maintain innovations on these arrangements. AI (Artificial Intelligence) is a term which started to become more and more a part of our lives and is recently recognized with advancing technology.

Youth participating in this organization arranged in international scale will have been gained to ability to express themselves in native and foreign language, reconciliation and culture of discussion.

The spirit of entrepreneurship will have been aroused by the perspective brought up about AI. Physical and intellectual mobility within the scope of the project will be provided between individuals. Individuals will gain the spirit of team work by taking effective roles in group.

Objectives:

As a result of increasing studies day by day, artificial intelligence has integrated into our lives. Many countries have reached a level to compete with each other in this regard.

We also aim to increase the studies in our country and partners countries in the field of artificial intelligence within the scope of this project.

It is yet developing and it's unclear what it can or cannot do; It is aimed to raise awareness on the effects of using artificial intelligence, which is an area that cannot be clarified how far the areas of use can be expanded.

In addition to provide a meeting point for organizations to exchange information about artificial intelligence and youth participation in decision making and foster a solid network of good and reliable partners to make future projects.

Who we are

Main philosophy of Law and Career community is to support and inform university students about the steps they will take when they start a career. Starting a future with firm steps by guiding our past and acting respectfully to different thoughts are our business philosophy. Our community is formed with youngsters who embrace their cultural values and are determined to move their country forward. Moreover, our community provides youngsters with experienced people so that they will be able to learn at first hand. Our goal is to make them gain a new perspective. Generally, our community intends to help

youngsters to form their business life and find the most solid path towards to success. With the support of our participating members, our priority is to make youngsters to take right steps into the future. Our community was founded on the values of right, justice and success and it will remain to move on with these values. Our community will be guiding not only our members but also other youngsters who are interested in our works in terms of self-developing.
